

FUTURE IRRIGATION IDEAS DATA COLLECTION SURVEY

As part of furthering irrigation development in Tasmania, Tasmanian Irrigation Pty Ltd and TFGA are seeking community input into the identification of future irrigation opportunities in Tasmania or synergy opportunities within the current Tasmanian infrastructure. If you would like to discuss your ideas further please, contact Nik Byrne on 03 6398 8433

1. Description of idea or concept e.g. pipeline from dam x to region y.

2. Description of Location. Ideally attached google earth with the relevant latitude and longitude reference or Tasmap 1:25,000 with grid reference.

3. Source of water description. Please provide name of stream or reservoir and where available capacity and available volume.

4. Description of potential land area to be irrigable, land capability and potential yields.

5. Please list the communities that would benefit from this concept.

6. Your details.
