

SEIS 3 Sales Update

22 April 2013

The second round of water sales for SEIS Stage 3 closes on Wednesday, 24 April at 4pm.

One of the key elements for the scheme to progress and secure the public contribution to capital construction is reaching the water sales threshold of 2,400 ML.

Current sales indicate that a further 300ML needs to be sold to reach this critical threshold. The remaining volumes in each of the trading zones are shown in the table below.
