## 1.2 General

In the Direct Sale Rules, unless the context otherwise requires:

- (a) the word ‘include’ does not exclude;
- (b) the singular includes the plural and vice versa;
- (c) a reference to an individual or person includes a corporation, partnership, joint venture, association, authority, trust, state or government and vice versa;
- (d) a reference to any gender includes all genders;
- (e) a reference to a recital, clause, schedule, annexure or exhibit is to a recital, clause, schedule, annexure, or exhibit of or to the Direct Sale Rules and a reference to the Direct Sale Rules includes any recital, clause, schedule, annexure or exhibit;
- (f) a recital, schedule, annexure or a description of the parties’ forms part of the Direct Sale Rules;
- (g) a reference to any agreement or document (including this document) is to that agreement or document (and, where applicable, any of its provisions) as amended, novated, supplemented or replaced from time to time;
- (h) where an expression is defined, another part of speech or grammatical form of that expression has a corresponding meaning;
- (i) where an expression is defined anywhere, it has the same meaning throughout;
- (j) headings are for convenience of reference only and do not affect interpretation;
- (k) no provision of the Direct Sale Rules will be construed adversely to a party solely on the ground that the party was responsible for the preparation of the Direct Sale Rules or that provision; and
- (l) a reference to anything (including any right) includes any part of that thing, but nothing in this clause 1.2(l) implies that performance of part of an obligation constitutes performance of the entire obligation.

---

## 2. Effect of application

---

### 2.1 Offer

An Application submitted under the Direct Sale Rules is a valid and irrevocable offer by the Applicant on the terms of the Direct Sale Rules to enter the Applicant’s Purchase Contract for Rights:

- (a) of a volume allocated by Tasmanian Irrigation under the Allocation Process but not greater than the Requested Volume; and
- (b) on the basis that the consideration in respect of Rights allocated in respect of:

- (i) the Conversion Volume is the surrender of an equivalent volume of the Applicant's Convertible Rights and the payment of the applicable Conversion Price (if any) for each ML of the surrendered rights; and
- (ii) the New Volume is the applicable New Issue Price per ML.

## 2.2 Irrevocable until acceptance date

Tasmanian Irrigation may accept the offer on or before the Acceptance Date and the offer is irrevocable (and may not be amended by an Applicant without Tasmanian Irrigation's consent) until then.

---

## 3. Complying Application

---

### 3.1 Requirements

To lodge a Complying Application, the Applicant must comply with this clause 3.

### 3.2 Application Form

The Applicant must apply by completing the Application Form as required by clause 3.3. The Application Form must not be removed from the Direct Sale Rules.

### 3.3 Completion of the Application Form

The Application Form must be completed where indicated on the Application Form with:

- (a) the full name of each of the parties comprising the Applicant;
- (b) an address for delivery of notices in Australia for the Applicant;
- (c) a postal address for the Applicant;
- (d) at least one contact person for the Applicant and contact details for that contact person;
- (e) the full name of each Guarantor required by clause 3.5;
- (f) an address for delivery of notices in Australia for each Guarantor;
- (g) a postal address for each Guarantor;
- (h) the Qualifying Land (if any);
- (i) the Applicant's Qualifying Zone if that nomination is required by clause 1.1(g)(i)B or clause 3.12(a)(iii);
- (j) details of the Preliminary Connection Point;
- (k) the Requested Volume being the volume of Rights for which the Applicant applies broken into the New Volume and the Conversion Volume;
- (l) where the Applicant's Region is the Jordan River Valley Region or the South East Region, the break-up of the New Volume into the volume in ML that the Applicant requests to be delivered in each Delivery Period; and
- (m) if there is a Conversion Volume:
  - (i) details of the Applicant's Convertible Rights; and
  - (ii) the break-up of the Conversion Volume into the volume in ML that the Applicant requests to be delivered in each Delivery Period.

### 3.4 The Requested Volume - constraints

- (a) Subject to clause 3.12, the Application must comply with the following constraints in respect of the Requested Volume:
  - (i) the part of the Requested Volume that the Applicant requests to be delivered in the Summer Delivery Period must be not less than the Minimum Purchase Volume; and

- (ii) the parts of the Requested Volume that the Applicant requests to be delivered in each Delivery Period must be an integer multiple of the Incremental Purchase Volume.

- (b) Where the Applicant under an Application for New Rights also requests Conversion Volume for the conversion of Stage Two or Stage Three Rights by a separate Application, the volume of Rights that the Applicant requests to be delivered in the Summer Delivery Period for the purposes of clause 3.4(a)(i) will be taken to be the total volume of those Rights requested by those two Applications.

### 3.5 Guarantors

Subject to clause 3.12(a)(ii):

- (a) if any Applicant is a company and is not a listed company or a subsidiary of a listed company, each director of the company is required to be a Guarantor; and
- (b) if any Applicant is a subsidiary of a listed company, the listed company is required to be a Guarantor.

### 3.6 Executing the Application Form

- (a) The Application Form must be executed by each Applicant and each Guarantor (if any) and must be dated.
- (b) Where the Application Form is executed under power of attorney, a certified copy of that power and evidence that the power has been registered must be lodged with the Application Form.

### 3.7 Qualifying land

Subject to clause 3.12(a)(ii), the Applicant must establish to Tasmanian Irrigation's reasonable satisfaction that:

- (a) the Qualifying Land is a parcel of land in the Irrigation District;
- (b) no other land which is contiguous with the Qualifying Land is used in the same Business Unit as the Qualifying Land; and
- (c) the Applicant:
  - (i) owns or is otherwise entitled to deal with the Qualifying Land;
  - (ii) is the occupier of the Qualifying Land; or
  - (iii) has a relationship to the Qualifying Land which Tasmanian Irrigation in its absolute discretion considers to be sufficiently equivalent to ownership or occupation.

### 3.8 Contiguous Land

For the purposes of clause 3.7(b), land is contiguous even if it is intersected by:

- (a) a highway, railway, tramway or any other way; or
- (b) any land in other ownership,

unless Tasmanian Irrigation in its absolute discretion considers that the effect of the intersection is to practically sever the land for operational purposes.

### 3.9 Competing applications

- (a) This clause 3.9 does not apply where clause 3.7 does not apply to the Application under clause 3.12(a)(ii).
- (b) Subject to clause 3.9(a), the Application must be:
  - (i) the only application which nominates any part of the Qualifying Land as the qualifying land for the purposes of the application; or
  - (ii) approved by Tasmanian Irrigation under clause 3.9(c).

- (c) Subject to clause 3.9(a), where Tasmanian Irrigation receives another application or other applications under which part or all of the Qualifying Land is part or all of the qualifying land for that other application, Tasmanian Irrigation:
  - (i) will consult with the relevant applicants in relation to the applications and any potential variations to the applications; and
  - (ii) may after the consultation required by clause 3.9(c)(i):
    - A. allow any of the applications to be varied by the relevant applicant; and
    - B. decide in its absolute discretion which of the applications as varied if varied under clause 3.9(c)(ii)A, if any, it will approve.
- (ii) where the Convertible Rights are Stage Three Rights and the Application specifies Associated Zoned Flow Delivery Rights, the Associated Zoned Flow Delivery Rights are:
  - A. for a delivery zone in Sorell Irrigation District that corresponds with the Applicant's Qualifying Zone; and
  - B. sufficient to allow delivery of the Convertible Rights in the irrigation season of Sorell Irrigation District.
- (d) For the purposes of clause 3.12(c)(ii)A, a delivery zone of the Sorell Irrigation District corresponds with a Qualifying Zone if the delivery zone of the Sorell Irrigation District encompasses the Qualifying Zone.

### 3.13 The Preliminary Connection Point

- (a) The Preliminary Connection Point:
  - (i) must be approved by Tasmanian Irrigation; and
  - (ii) must be in the Applicant's Delivery Zone.
- (b) Tasmanian Irrigation may decide in its absolute discretion whether or not it approves any Preliminary Connection Point.
- (c) The Applicant agrees that, where the Applicant owns or occupies land in the Irrigation District (even if that land is Qualifying Land) but no Qualifying Zone borders or passes through that land, the Applicant has no right to require Tasmanian Irrigation to extend the water delivery system of the Irrigation District so as to allow a connection to that land within that land or on a boundary of that land.

### 3.14 Lodging the Application

Not later than 2:00 pm on the Closing Date:

- (a) the following must be lodged in one of the ways specified in clause 3.15:
  - (i) the completed and executed Application Form to which the Direct Sale Rules remain attached; and
  - (ii) a copy of the Applicant's Purchase Contract:
    - A. unaltered;
    - B. with the schedule left uncompleted; and
    - C. executed by each Applicant and each Guarantor (if any); and
- (b) a deposit equal to the Deposit Amount must be paid to Tasmanian Irrigation by:
  - (i) a cheque that is restrictively endorsed with the words "Not Negotiable" payable to Tasmanian Irrigation Pty Ltd being lodged with the documents referred to in clause 3.14(a); or
  - (ii) another payment method approved by Tasmanian Irrigation.

### 3.15 How to lodge

The documents referred to in clause 3.14(a) can be lodged:

- (a) by mail addressed to:
  - Tasmanian Irrigation Pty Ltd
  - PO Box 84
  - Evandale TAS 7212
 and received by Tasmanian Irrigation not later than the time specified in clause 3.14(a);
- (b) personal delivery to Tasmanian Irrigation's offices at:
  - Level 2, Terminal Building
  - Launceston Airport
  - Western Junction in Tasmania; or
- (c) by personal delivery to an authorised officer of Tasmanian Irrigation.

### 3.10 The Conversion Volume

If there is any Conversion Volume:

- (a) the volume of the Applicant's Convertible Rights must be the same as the Conversion Volume; and
- (b) the Applicant must:
  - (i) hold the Applicant's Convertible Rights at the date the Application Form is lodged with Tasmanian Irrigation; and
  - (ii) continue to hold the Applicant's Convertible Rights until completion of the Allocation Process.

### 3.11 Conversion of Stage One Rights

Where the Application requests Conversion Volume for the conversion of Stage One Rights, the Application is only a Complying Application if the Applicant's Qualifying Zone determined under clause 1.1(g) is a River Conversion Zone.

### 3.12 Conversion of Stage Two Rights and Stage Three Rights

- (a) Where the Application requests Conversion Volume for the conversion of Stage Two Rights or Stage Three Rights:
  - (i) an Application for any New Volume or Conversion Volume for the conversion of Stage One Rights must be made by a separate Application;
  - (ii) clauses 3.4, 3.5 and 3.7 do not apply to the Application;
  - (iii) the Application must nominate the Applicant's Qualifying Zone;
  - (iv) the Applicant's Qualifying Zone must be:
    - A. within the irrigation district in which the Convertible Rights are held; and
    - B. approved by Tasmanian Irrigation under clause 3.12(a)(v); and
  - (v) subject to clause 3.12(b), Tasmanian Irrigation may decide in its absolute discretion whether Tasmanian Irrigation approves the Applicant's Qualifying Zone.
- (b) Additionally, where the Application requests Conversion Volume for the conversion of Stage Three Rights, the Applicant may specify delivery rights in the Sorell Irrigation District as the Associated Zoned Flow Delivery Rights in the Application Form.
- (c) Tasmanian Irrigation will approve the Applicant's Qualifying Zone if:
  - (i) where the Convertible Rights are Stage Two Rights, the point where water supplied under those Stage Two Rights is currently delivered under the South East Irrigation Water District Stage Two is within the Applicant's Qualifying Zone; and

---

## 4. Tasmanian Irrigation's rights

---

### 4.1 Variation of Application

- (a) Before or after the Closing Date, Tasmanian Irrigation may notify the Applicant of changes which are required to make an Application a Complying Application.
- (b) If the Applicant notifies Tasmanian Irrigation that the Applicant agrees to vary the Application as specified by Tasmanian Irrigation, the Application will be taken to be so varied and to be a Complying Application even if the variation takes effect after the Closing Date.

### 4.2 Rights

Without limiting any of its other rights under the Direct Sale Rules, and in addition to its rights under clause 4.1, Tasmanian Irrigation has an absolute discretion:

- (a) to reject an Application which is not a Complying Application;
- (b) to treat an Application as a Complying Application even though it is not otherwise a Complying Application;
- (c) to treat an Application which is not a Complying Application because it does not comply with either clause 3.4(a)(i) or clause 3.4(a)(ii) as an Application under which non-compliant volumes are rounded down to the nearest integer multiple of the Incremental Purchase Volume in place of the non-compliant volumes;
- (d) at any time before commencing the Allocation Process, to vary any of:
  - (i) the boundaries of the Irrigation District;
  - (ii) the boundaries of the Regions but not in a way that changes the Applicant's Region under an Application unless that affected Applicant agrees to that change;
  - (iii) the Qualifying Zones (including by adding or subtracting Qualifying Zones) and their identification as Trunk Zones or Spur Zones; and
  - (iv) the location of either or both of Pump Station One and Pump Station Two;
- (e) to treat a Replacement Application lodged after the Closing Date as a Complying Application;
- (f) to call for new Applications;
- (g) to extend the Closing Date;
- (h) to terminate the sale process under the Direct Sale Rules at any time before notifying successful Applicants; and
- (i) to take such other action it considers, in its absolute discretion, to be appropriate in relation to the sale process.

### 4.3 Replacement Applications – change in ownership or occupation of the Qualifying Land

- (a) Where the owner or occupier of the Qualifying Land (if there is any Qualifying Land) for an Application ("the original Application") changes before the Allocation Process has started, the Applicant under the original Application may request Tasmanian Irrigation to treat one or more new Applications for an aggregate Requested Volume not greater than the Requested Volume under the original Application from Applicants who satisfy clause 3.7(c)(iii) in respect of at least part of the Qualifying Land as full or partial replacements for the original Application for the purposes of this clause 4.3.

- (b) Tasmanian Irrigation may in its absolute discretion decide whether or not to treat any new Application as a replacement Application for the purposes of this clause 4.3 subject to any conditions it considers appropriate.
- (c) If Tasmanian Irrigation does decide to treat the new Applications as replacement Applications for the purposes of this clause 4.3:
  - (i) the Requested Volume under the original Application will be reduced by the aggregate Requested Volume under the new Applications;
  - (ii) Tasmanian Irrigation will treat those replacement applications as Complying Applications under clause 4.2(e) if the new Applications would be Complying Applications if they had been lodged before the Closing Date; and
  - (iii) Tasmanian Irrigation must refund the Deposit under the original Application to the extent that it exceeds the Deposit Amount for the original Application based on the Requested Volume as reduced under clause 4.3(c)(i).

### 4.4 Replacement Applications – change in ownership of the Convertible Rights

- (a) Where the Applicant under an Application in respect of which there is any Conversion Volume ("the original Application") does not continue to hold all the Convertible Rights at any time before the Allocation Process has started, that Applicant may request Tasmanian Irrigation to treat one or more new Applications from new holders of any of the Convertible Rights as full or partial replacements for the original Application for the purposes of this clause 4.4.
- (b) Tasmanian Irrigation may in its absolute discretion decide whether or not to treat any new Application as a replacement Application for the purposes of this clause 4.4 subject to any conditions it considers appropriate.
- (c) If Tasmanian Irrigation decides to treat any new Application as a replacement Application for the purposes of this clause 4.4:
  - (i) the Requested Volume under the original Application will be reduced by the aggregate Conversion Volume under those replacement Applications;
  - (ii) Tasmanian Irrigation will treat those replacement applications as Complying Applications under clause 4.2(e) if those replacement Applications would be Complying Applications for Conversion Volume if they had been lodged before the Closing Date; and
  - (iii) Tasmanian Irrigation must refund the Deposit under the original Application to the extent that it exceeds the Deposit Amount for the original Application based on the Requested Volume as reduced under clause 4.4(c)(i).

### 4.5 Tasmanian Irrigation not liable

Tasmanian Irrigation is not liable to:

- (a) any unsuccessful Applicant in respect of expenses incurred by the Applicant; or
- (b) any Applicant in respect of any costs incurred in the preparation of an application or as a result of the exercise of any rights of Tasmanian Irrigation under the Direct Sale Rules.

---

## 5. Allocation process

---

### 5.1 Effect of Complying Applications

Each Complying Application will have effect as an application for:

- (a) where the Applicant's Region is the Gretna Region, the Requested Volume of Rights for delivery in the Summer Delivery Period; and
- (b) where the Applicant's Region is the Jordan River Valley Region or the South East Region, the respective part of the Requested Volume specified by the Complying Application for each Delivery Period for delivery in that Delivery Period.

### 5.2 Step 1 - conversion allocations

The Conversion Volume requested for delivery in a Delivery Period will be allocated to each Complying Application for delivery in that Delivery Period in respect of the Applicant's Qualifying Zone.

### 5.3 Step 2 – retention for unconverted Convertible Rights

- (a) For the purposes of Step 2 under this clause 5.3, the remaining volume of each category of the Convertible Rights (that is Stage One Rights, Stage Two Rights and Stage Three Rights) is the aggregate annual volume of that category of Convertible Rights less the aggregate Conversion Volume allocated in respect of application to convert Convertible Rights of that category under Step 1 (clause 5.2).
- (b) After the allocation of Rights under Step 1 (clause 5.2), Tasmanian Irrigation may, in respect of each category of the Convertible Rights, set aside a volume of Rights up to the remaining volume of that category of the Convertible Rights split between one or more:
  - (i) in the case of Stage One Rights, River Conversion Zones;
  - (ii) in the case of Stage Two Rights, Qualifying Zones that are within the boundaries of the South East Irrigation Water District Stage Two; and
  - (iii) in the case of Stage Three Rights, Qualifying Zones that are within the boundaries of the Sorell Irrigation District.
- (c) Subject to the constraints in clause 5.3(b), Tasmanian Irrigation may decide the volume of Rights to be set aside and the split of that volume among Qualifying Zones in its absolute discretion.
- (d) The volumes of Rights set aside in respect of a Qualifying Zone under Step 2:
  - (i) will not be available for allocation in respect of that Qualifying Zone under the Allocation Process; and
  - (ii) may be issued or retained by Tasmanian Irrigation as it decides in its absolute discretion.

### 5.4 Step 3 - allocation of remaining delivery capacity for each Qualifying Zone

Where after the allocation of Rights under Step 1 (clause 5.2) and the setting aside of volume under Step 2 (clause 5.3):

- (a) the remaining total unallocated Requested Volume applied for in respect of a Qualifying Zone for delivery in a Delivery Period does not exceed the remaining Zone Delivery Capacity for that Qualifying Zone for that Delivery Period, the remaining Requested Volume of Rights for delivery in that Delivery Period will be allocated to each unsatisfied Complying Application for Rights for delivery in that Delivery Period in respect of that Qualifying Zone, or

- (b) the remaining total unallocated Requested Volume applied for in respect of a Qualifying Zone in a Delivery Period exceeds the remaining Zone Delivery Capacity for that Qualifying Zone for that Delivery Period, Tasmanian Irrigation may:

- (i) terminate the sale process and re-commence the sale using a competitive process; or
- (ii) allocate Rights up to the remaining Zone Delivery Capacity for that Delivery Period for that Qualifying Zone among unsatisfied Complying Applications for Rights for delivery in that Delivery Period in respect of that Qualifying Zone as Tasmanian Irrigation in its absolute discretion deems fit.

### 5.5 The Water Sales Threshold

If the result of the Allocation Process in respect of the Complying Applications received by Tasmanian Irrigation (and any other sales of Rights made by Tasmanian Irrigation prior to the Acceptance Date) would not satisfy the Water Sales Threshold, Tasmanian Irrigation may elect to:

- (a) terminate the Allocation Process and not allocate any Rights; or
- (b) allocate Rights to Complying Applications under clauses 5.2 and 5.4.

### 5.6 Insufficient take up in a Qualifying Zone

- (a) If Tasmanian Irrigation does not receive sufficient Complying Applications for Rights in respect of a Qualifying Zone, Tasmanian Irrigation may elect to:
  - (i) not allocate any Rights in respect of that Qualifying Zone; or
  - (ii) allocate Rights to Complying Applications in respect of that Qualifying Zone under clauses 5.2 and 5.4 subject to Tasmanian Irrigation receiving additional commitments to purchase Rights in respect of that Qualifying Zone as specified by Tasmanian Irrigation in its absolute discretion.
- (b) Whether or not there are sufficient Complying Applications for Rights in respect of a Qualifying Zone is the decision of Tasmanian Irrigation in its absolute discretion.

---

## 6. Post Allocation process

---

### 6.1 Notice of allocation

Tasmanian Irrigation must notify the Applicant of the volume of Rights allocated to the Applicant for delivery in each Delivery Period as determined under the Allocation Process as soon as reasonably possible after the Allocation Process has been completed and in any event before the Acceptance Date.

### 6.2 Effect of notification

If Tasmanian Irrigation notifies the Applicant under clause 6.1 before the Acceptance Date, Tasmanian Irrigation, the Applicant and any Guarantors who executed the Application Form enter an agreement on the terms of the Applicant's Purchase Contract:

- (a) for the purchase of the Rights notified under clause 6.1;
- (b) at the Price allocated to the different categories of Rights (including the Conversion Volume) in the manner specified in clause 2.1(b);
- (c) on the basis that the following are taken to be inserted as applicable in the schedule:
  - (i) the total volume of Rights notified under clause 6.1 as the Volume and the separate volume of Rights for delivery in each Delivery Period;

- (ii) the Price as the Purchase Price and the details of the allocation of the Price required to complete item 13 of the schedule to the Applicant's Purchase Contract;
  - (iii) the volume of Rights for delivery in each Delivery Period notified under clause 6.1 multiplied by the Flow Rate Conversion Factor as the Flow Rate in ML per day for that Delivery Period;
  - (iv) where the Convertible Rights are Stage One Rights or Stage Two Rights, the details of the Applicant's Convertible Rights as the Converting Rights;
  - (v) where the Convertible Rights are Stage Three Rights, the details of the Applicant's Convertible Rights and the Associated Delivery Rights (if any) as the Converting Rights;
  - (vi) the Qualifying Land (if there is any);
  - (vii) the Applicant's Supply Region as the Region;
  - (viii) the Applicant's Delivery Zone as the Zone; and
  - (ix) details of the Preliminary Connection Point; and
- (d) on the basis that the map of the water delivery system of the Irrigation District identifying separate Delivery Zones and Regions as finally determined by Tasmanian Irrigation under the Direct Sale Rules is inserted as annexure 1 to the Applicant's Purchase Contract and the Trading Rules as defined in the Applicant's Purchase Contract.

### 6.3 The Applicant's Purchase Contract

- (a) Tasmanian Irrigation must with the Applicant's Purchase Contract:
  - (i) insert the name of the Applicant and any Guarantors and their addresses and the other details referred to in clause 6.2 in the schedule;
  - (ii) execute it;
  - (iii) date it with the date of the notification under clause 6.1; and
  - (iv) send a photocopy of it to the Applicant.
- (b) The completion and execution by Tasmanian Irrigation of the Applicant's Purchase Contract is only intended to permanently record the terms of the agreement arising under clause 6.2 and the parties will be bound by that agreement on the date of, and by virtue of, the notification given under clause 6.1.

### 6.4 The Deposit

- (a) Upon notifying the Applicant pursuant to clause 6.1, the Deposit will be applied to the first instalment of the deposit payable under the Applicant's Purchase Contract.
- (b) Tasmanian Irrigation must refund to the Applicant any excess of the Deposit over the first instalment of the Deposit payable under the Applicant's Purchase Contract.

### 6.5 Unsuccessful Applicant

If an Application is rejected or not accepted by Tasmanian Irrigation then Tasmanian Irrigation, as soon as reasonably possible after the Allocation Process has been completed, must:

- (a) notify the Applicant that the Application has not been accepted; and
- (b) repay the Deposit to the Applicant.

---

## 7. Notices

---

### 7.1 How given

A notice required or permitted to be given by Tasmanian Irrigation to another party under the Direct Sale Rules must be in writing and is treated as being duly given if:

- (a) left at that party's address for delivery of notices specified in the Application Form; or
- (b) sent by pre-paid mail to that party's postal address specified in the Application Form.

### 7.2 Receipt of notice

A notice given to a party under this clause is treated as having been duly given and received:

- (a) when delivered if left at the party's address; and
- (b) on the third Business Day after posting if sent by pre-paid mail to the party's postal address.

### 7.3 Addresses

For the purpose of Tasmanian Irrigation giving notices under the Direct Sale Rules:

- (a) each party's address is the address specified in the Application Form or another address which that party notifies to Tasmanian Irrigation; and
- (b) each party's postal address is:
  - (i) the postal address specified in the Application Form or another postal address which that party notifies to Tasmanian Irrigation; or
  - (ii) that party's address if no postal address is specified in the Application Form or notified to Tasmanian Irrigation.

---

## 8. General

---

### 8.1 Variation and waiver

No variation of, waiver of, or consent to any departure from the Direct Sale Rules or the Applicant's Purchase Contract has any effect unless it is confirmed in writing and;

- (a) signed by the parties in the case of a variation; or
- (b) signed by the party waiving or consenting to the departure in the case of a waiver or consent to a departure,

and then its effect is strictly limited to the extent for which it is made or given.

### 8.2 Invalidity

If any provision of the Direct Sale Rules or the Applicant's Purchase Contract is invalid, other provisions which are self-sustaining and can be performed separately from the invalid provision, are valid and enforceable on their terms.

### 8.3 Sole agreement

- (a) If an Application is accepted, the Application Form, the Direct Sale Rules and the Applicant's Purchase Contract:
  - (i) constitute the sole and entire agreement; and
  - (ii) supersede all prior agreements and understandings,
 among Tasmanian Irrigation, the successful Applicant and any Guarantor relating to Rights.
- (b) A warranty, representation or guarantee connected with the subject matter of an Application or other term not contained in the Application Form, the Direct Sale Rules or the Applicant's Purchase Contract has no force or effect and may not be relied upon by the Applicant or any Guarantor.

#### 8.4 **Acknowledgment by Applicant**

Each Applicant acknowledges that in deciding to apply it:

- (a) does not rely on any representation or arrangement whether oral, written or by other conduct as adding to or amending the Direct Sale Rules or the Applicant's Purchase Contract; and
- (b) did so relying solely on its own judgement.

#### 8.5 **Applicable law**

The Application and the Direct Sale Rules must be interpreted under the law of the State of Tasmania.

#### 8.6 **Joint and several liability**

Where more than one person accepts liability under any provision of the Application or the Direct Sale Rules, each of those people is liable severally and every two or more of them is liable jointly.

ZONES	
Each Zone comprises the following parts of the Scheme.	
If the Zone is a Trunk Zone: (a) the Zone as shown on this plan; and (b) all other parts of the water delivery system of the proposed Irrigation District through any part of which water flowing from Pump Station 1 must necessarily pass to reach that Zone.

**Disclaimer:**  
 Tasmanian Irrigation does not guarantee that the pipeline alignment presented in this illustration will be the actual alignment when the scheme is constructed.  
 The alignment presented here is based on the business case design. The final scheme design is subject to change and will depend on the outcome of water sales. Changes to the scheme design will affect the alignment.  
 Tasmanian Irrigation is providing this information to assist irrigators to consider the opportunity of purchasing water entitlements. However, neither the provision of this information or any other information provided in relation to alignment will create any obligation on Tasmanian Irrigation. The only obligation which Tasmanian Irrigation will assume will be an obligation to provide water to the property boundary.
