

**Disclaimer:**

Tasmanian Irrigation does not guarantee that the pipeline alignment presented in this illustration will be the actual alignment when the scheme is constructed.

The alignment presented here is based on the business case design. The final scheme design is subject to change and will depend on the outcome of water sales. Changes to the scheme design will affect the alignment.

Tasmanian Irrigation is providing this information to assist irrigators to consider the opportunity of purchasing water entitlements. However, neither the provision of this information or any other information provided in relation to alignment will create any obligation on Tasmanian Irrigation. The only obligation which Tasmanian Irrigation will assume will be an obligation to provide water to the property boundary.

- ZONES**
- Each Zone comprises the following parts of the Scheme.
- If the Zone is a Trunk Zone:  
 (a) the Zone as shown on this plan; and  
 (b) all other parts of the water delivery system of the proposed Irrigation District through any part of which water flowing from Pump Station 1 must necessarily pass to reach that Zone.
- If the Zone is a Spur Zone:  
 (a) the Zone as shown on this plan; and  
 (b) the Trunk Zone to which that Zone joins.
