- The redesigned \$165 million Tamar Irrigation Scheme has the capacity to deliver high-reliability irrigation water to the Beaconsfield, Legana, Rowella, Hillwood, Pipers Brook and Pipers River areas
- Farmers can apply for water entitlements until 29 February 2024 to demonstrate commitment to the scheme
- It will never be cheaper to purchase water from this scheme as the current price of \$2,450 / megalitre is only available during this water sales process
- Application forms and further information can be downloaded from www.tasirrigation.com.au/schemes/tamar-irrigation-scheme
